

# Effects Colouring in 00.

WHY NOT TRY AND ADD THESE SIMPLE EFFECTS TO YOUR NAME TO BRING OUT MORE FLAVOUR!

## DROP SHADOW -

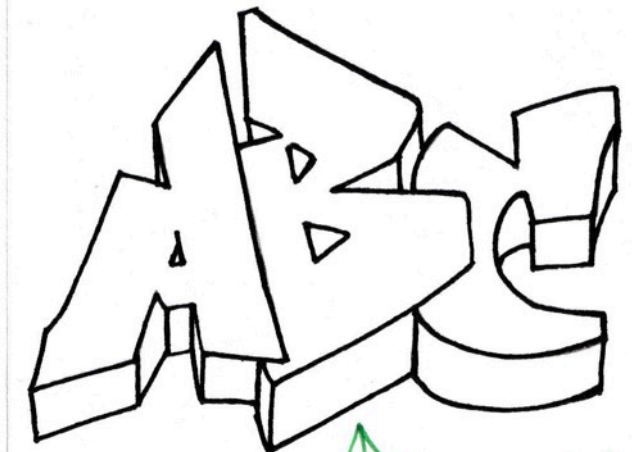

Imagine shining a light onto your name. Which angle is it coming from? Do your shadow on the opposite side. 😊

## 3D -

Which angle would you be viewing it from? Draw equal length lines from the corners the same direction as your view point, lastly connect the lines.

## BUBBLE BACKGROUND -

Using pencil, overlap different size circles. When done change to pen and go around the outline, outside only. Get your eraser to it and watch all the pencil lines disappear, Bubbles!
